About Me

Dedicated Full Stack Developer with a robust skill set encompassing both front-end and back-end development. Utilizing tools like React, Typescript, Node.js, and Next.js to create dynamic, user-friendly web applications. Proficiency in developing responsive designs with Tailwind CSS and Bootstrap ensures seamless user experiences across devices. On the backend, working with PHP and Laravel to build scalable, secure server-side applications.

From crafting pixel-perfect interfaces to architecting complex server-side logic, committed to delivering high-quality, efficient solutions tailored to client needs. Let's connect to bring your next project to life with the expertise and passion infused into every line of code.

Experience

As a full-stack developer, I have built a comprehensive and diverse skill set that enables me to handle both front-end and back-end development tasks effectively. My journey in this field includes working on a variety of projects, such as replicating an e-commerce website, collaborating on an enrollment management system, and developing additional applications like Medhouse and Shopery-Org-Web. These experiences have honed my technical proficiency and collaborative skills, preparing me to tackle complex development challenges.

1. E-commerce Website Replication: Successfully replicated an e-commerce website using the PHP framework Laravel. This project showcased my strong web development skills and deep understanding of e-commerce functionalities.

2. Collaborative Project - Enrollment Management System: Worked with two partners to develop an Enrollment Management System. The project ran smoothly, highlighting my ability to work effectively in a team and manage collaborative coding efforts.

3. Medhouse: After presenting several projects, I initiated and developed Medhouse. This project further solidified my full-stack development skills and my capability to deliver complete web solutions.

4. Shopery-Org-Web: Recently completed work on Shopery-Org-Web, demonstrating my ongoing commitment to expanding my portfolio and taking on new challenges in web development.

These experiences highlight my proficiency in full-stack development, my collaborative work ethic, and my dedication to continuous learning and project completion.
